Product map: what XTTS Server MacOS Guide is for

WHAT IT IS

A small project in Markdown. The README and the files are the whole claim.

WHAT GOES IN

The files at the top of the tree: README.md.

WHAT COMES OUT

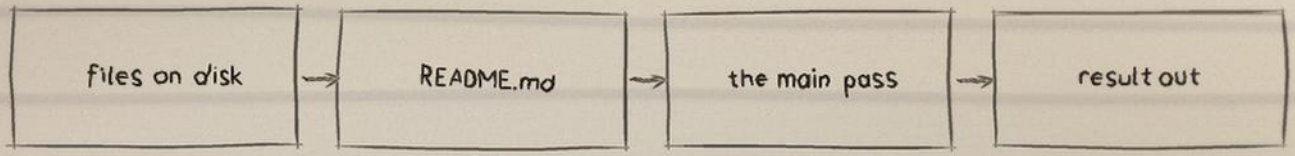

What the top files produce when they run or get read. Nothing else is promised.

WHERE IT STOPS

No service behind it, no account, no upload. If a path is untested, VISUAL.md says so.
